**House of Representatives**

Bill Pascrell, Jr.  
Eighth District  
New Jersey

April 2010

Dear Residents and Friends of the Eighth Congressional District and Residents of the Greater New York/New Jersey Metropolitan Area:

I am happy to welcome the **New Jersey Science and Engineering Festival** to New Jersey's Eighth Congressional District. This fantastic excursion through the wonders of science and technology will make available to a wide audience some of the latest, most interesting and cutting edge applications of technology, science and research that can be found anywhere.

This weekend-long Festival will take place at **Clifton High School** in Clifton on **October 23<sup>rd</sup> and 24<sup>th</sup>**, with related aviation and aeronautical exhibits and events being held at Caldwell Airport during the same time. **THE EXHIBITS ARE FREE TO THE PUBLIC** and free shuttle busses will run between the High School and the Airport so that everyone has a chance to see all of the many wonderful and exciting displays.

Bring your children, bring your parents, bring your friends to witness and enjoy a front row seat to the future. Americans have always been innovative and experimental. At this Festival, you will see where our ever-expanding knowledge is taking us and the opportunities available for those who have considered scientific and technical careers. Now is a critical time to jump-start our economy and inspire a new generation to revitalize American Industry!

People of all ages will enjoy this delightful array of exhibits, lectures, contests, musical performances, theatre, arts, film and other celebrations of science and technology. New Jersey is home to many Nobel laureates, leading research scientists and industrial and educational leaders. Come experience the thrill that they have known in making science and technology not only their career, but a life-long devotion. I know I will be there. I look forward to seeing YOU there, too!

Sincerely,

A handwritten signature in blue ink that reads "Bill Pascrell, Jr.".

Bill Pascrell, Jr.  
Member of Congress
