## Real Life Applications

RoboFest  
2012

Sunday, October 14

# *Passaic County Sherriff's Department* **BOMB SQUAD ROBOT**

Representatives of the Passaic County Sherriff's Department did a terrific job of explaining and demonstrating their Bomb Squad Robot at the inaugural RoboFest Exhibit.

We are very appreciative that they are coming back to show the operation of the Talon robot that is used in some of the most dangerous jobs in law enforcement.

Welcome back to our friends in the Sherriff's Department.

Come out to meet these great members of the community and their robotic helper.
